PROFESSIONAL SUMMARY

Senior .NET Developer with 11 years of experience building scalable, full-stack applications and microservices across e-commerce, compliance, healthcare, and telecom. At Optimizely, co-engineered **SpireWiz**, an AI-powered automation tool (Python/GPT-4o) that cut enterprise upgrade cycles by **up to 80%** and reclaimed 600+ developer hours annually; architected and shipped **DevSpace**, a Windows developer-productivity app (Electron + .NET 9). Track record of leading legacy-to-cloud migrations (Azure/AWS) and mentoring engineering teams to ship high-reliability applications. Now based in Germany and available immediately.

TECHNICAL SKILLS

Programming Languages	C#, TypeScript, JavaScript, Python
.NET & Frameworks	ASP.NET Core, ASP.NET MVC, Blazor, Entity Framework Core, SignalR, Next.js, Express.js, Electron
Architectures & Patterns	Domain-Driven Design, Clean Architecture, Microservices, CQRS, Event-Driven, Serverless
AI Tools & Technologies	OpenAI API, Google Gemini, Claude Code (agents/commands), MCP, Cursor IDE, GitHub Copilot
Databases	MSSQL, PostgreSQL, MongoDB, MySQL, DynamoDB, SQLite
Cloud Platforms	Azure (App Services, AD, Functions, VM), AWS (EC2, Lambda, S3, SNS, SQS, IAM)
DevOps & CI/CD	Docker, GitHub Actions, Azure DevOps, Jenkins, Git, IIS
Frontend	React, Angular, Redux, Tailwind CSS, Bootstrap
APIs & Messaging	REST, gRPC, RabbitMQ
Testing	xUnit, NUnit, Moq
Methodologies	Agile (Scrum, Kanban), Jira

WORK EXPERIENCE

Senior Developer | Optimizely

April 2023 – June 2026

B2B Commerce | Dhaka, Bangladesh

<https://optimizely.com>

C#, ASP.NET Core, EF Core, MSSQL, TypeScript, Angular, React, Node.js, Azure, Python, OpenAI, Optimizely Opal

- Proactively identified process inefficiencies and co-engineered **SpireWiz**, an AI-powered upgrade automation tool (Python + OpenAI GPT-4o), serving a portfolio of **25+ enterprise clients**, adopted into the team's standard upgrade workflow, and showcased company-wide, projected to deliver **~\$180K annual business value** by reclaiming **600+ developer hours**.
- Customized and maintained the Optimizely **Configured Commerce platform**, enabling B2B clients to streamline extensive product catalogs, dynamic pricing models, and complex ERP integrations at scale – leveraging **AI-assisted SDLC workflows** (Claude Code agents/commands, Cursor, GitHub Copilot, MCP tooling) to speed code analysis and refactoring while keeping all production code human-reviewed.
- Executed two major enterprise system migrations, accelerating delivery timelines 55% versus historical team averages through optimized internal processes and deployment workflows.
- Selected for cross-team development on Optimizely Opal, the company's AI platform, built a custom Opal tool surfacing Configured Commerce order history and prototyped an Opal–Sitecore integration, earning multiple Opal certifications.
- Instituted mandatory PR code reviews across the engineering team, substantially reducing deployment errors and accelerating cross-functional knowledge sharing.

Software Engineer → Senior Software Engineer | KAZ Software

June 2016 – March 2023

Custom Software Development Company · Global Clients (35+ countries) | Dhaka, Bangladesh

<https://www.kaz.com.bd>

C#, ASP.NET Core, MSSQL, MongoDB, DynamoDB, TypeScript, Angular, React, Node.js, AWS, Azure, Docker

- Led legacy-to-microservices migration for Reganalytics (global trade compliance platform) using ASP.NET Core and Docker, reducing API response times from **~2.5s to ~280ms** and enabling real-time data updates.
- Architected cloud infrastructure on AWS and Azure for WebEvv (healthcare tracking platform), rightsizing compute instances, and integrating serverless technologies to optimize resource utilization.
- Designed and implemented load-balanced API Gateways for Robi (telecom serving millions of subscribers), centralizing traffic management and establishing automated CI/CD deployment pipelines for 40+ microservices.
- Managed and mentored cross-functional Agile teams of 8–12 developers, enforcing code quality standards and integrating automated testing gates to minimize production regressions.

Software Engineer | Chorki Limited

June 2015 – May 2016

Local Search Engine & E-Commerce Aggregator | Dhaka, Bangladesh

Node.js, JavaScript, AngularJS, MySQL, MongoDB

- Developed scalable REST APIs in Node.js and dynamic UI components in AngularJS for high-traffic web applications.
- Engineered a cross-platform Notification Hub generating targeted push notifications across Android, iOS, and Windows desktop clients.
- Built a backend data aggregation engine to scrape, process, and store news feeds from multiple high-volume sources into MongoDB.

CERTIFICATIONS

- **Microsoft Certified:** Azure Fundamentals (Credential ID: 733CAA4F32A38510) [Certificate Link](#)
- **Optimizely Opal Tools Certified 2025** (Credential ID: b23ab92f-617a-4b29-979d-2567bd16ec70) [Certificate Link](#)

PERSONAL PROJECTS

- **DevSpace — Windows Desktop App (Public Preview):** [Website](#) | [GitHub Releases](#)
A free developer-productivity app that centralizes projects, tools, credentials, and git workflow in one dashboard — auto-discovers 100+ installed tools in under 3 seconds and encrypts per-project credentials via the ASP.NET Core Data Protection API. Built with Electron + .NET 9, React 18, and TypeScript on Clean Architecture (CQRS, DDD), backed by 700+ automated tests. Architected and co-developed; shipped to public preview.
- **@strix-ai/currentdt-mcp:** [LobeHub](#) | [MSeep AI](#) | [NPM](#) | [GitHub Link](#)
An open-source TypeScript MCP server providing real-time datetime tooling for AI assistants (Cursor, Claude, VS Code).
- **AI-Powered Portfolio:** [Portfolio Link](#)
A Next.js 15 / React 19 portfolio featuring a Gemini 3 Flash chatbot, deployed via serverless backend (GitHub Pages + Vercel) with WCAG 2.1 AA compliance.
- **REPR Pattern:** [Medium Blog](#) | [GitHub Link](#)
A .NET 8 technical showcase implementing the Request-Endpoint-Response (REPR) pattern for scalable API architecture.

EDUCATION

Bachelor of Science in **Computer Science and Engineering**

2011 – 2015

Ahsanullah University of Science and Technology (AUST) | Dhaka, Bangladesh

<https://aust.edu>

ADDITIONAL DETAILS

- **Languages:** English (Fluent) | German (A1, currently learning – targeting A2 by the end of 2026)
- **Problem-Solving Profiles:** [LeetCode](#) | [HackerRank](#) | [Stack Overflow](#)
